SPORT 14

the tarmac wheel for small cars

Sport 14 is the perfect rim for **small cars that want to stand out on tarmac.**

The solid and semi-closed conformation of the wheel protects the brake caliper from stones and always allows the correct air cooling. The **light and strong design** guarantees high performances on tarmac as well as on gravel.

Sport 14 is **available in stock for Peugeot 106**, but can be machined for many other applications.
