DAKARZERO

14"

Excellence for off-road

DakarZero 14 is the new version of the famous DakarZero, specifically designed for **SSV** and **tubular frames prototypes** that need a small and durable wheel for racing in rough and demanding terrains.

Its special design allows to obtain a **wide range of offsets** – from +30 to -10 – which permit to widen the track: the mounting of the rim without spacers increases the structural strength and the fatigue resistance of the mechanical.

The **three-coat powder coating** provides the wheel with above-average wear resistance, as well as a consistently polished appearance.

MATERIAL

- Aluminum alloy A356-T6

INSERTS

- Taper 60°
- Taper 90°
- Flat

USE

- Off-road
- Rally raid

AVAILABLE COLORS

White Silver Anthracite Gold Black Bronze
