DAKARZERO

15"-16"-17"

Excellence for off-road

DakarZero is the low offset version of DakarCorse, dedicated to **extreme off-road**.

The spokes internal to the tire edge – with the profile falling towards the hub – allow to have a **negative offset** and protect the mechanical parts from stone chipping and sand. Moreover, the **three-coat powder coating** ensures high wear resistance giving the wheel a good appearance even after a probing race.

DakarZero is available in 15, 16 and 17 inches and can be machined in many applications.

MATERIAL

- Aluminum alloy A356-T6

INSERTS

- Taper 60°
- Taper 90°
- Flat

USE

- Off-road
- Rally raid
