OFFcrk

The jack for off-road racing

OFFcrk is the hydraulic jack designed for off-road racing vehicles of every category.

Machined from a solid block of **aeronautic aluminum alloy** in its essential parts, OFFcrk features a swivel foot that provides **secure footing on stony and rough terrain**. The lifting pin, of hexagonal section to allow the removal of earthy deposits from the lifting hole, is made of high strength hardened steel and can be adjusted in height to best suit the car set-up.

OFFcrk is a **practical** and **lightweight** tool, suitable even for heavy-duty use.

TECHNICAL FEATURES

Foot	Adjustable foot, machined from a solid block of aeronautic aluminum
Weight	5,90 kg
Lifting speed	18 strokes to maximum extension
Lifting weight	1200 kg
Minimum setup height	10 cm
Maximum setup height	48 cm
Extension	43 cm
Total length when closed	70 cm
Pin	<ul style="list-style-type: none">• Ø 20 mm• Hexagonal shape CH17

MATERIAL

- Aeronautic aluminum alloy AL6082

USE

- Off-road
