

Excalibur **18" – 17"**

Excalibur 17 - 18 - Strength and elegance

The smooth and flowing clean lines enhance the technique and functionality of this model, born for circuits but tamed for everyday roads. Its design leaves ample room for bigger brake callipers: for cooling or for a quick inspection.

The rim structure is robust while maintaining, at the same time, the lightness necessary for racing use.

A wide size range is available to suit tires of all sizes and compounds: from the asphalt of the Nürburgring to the streets of the city center, there are no boundaries for this wheel.

Excalibur is also available in many standard and dedicated applications for road cars.

MATERIAL

- Aluminum alloy A356-T6

INSERTS

- Taper 60°
- Taper 90°
- Flat

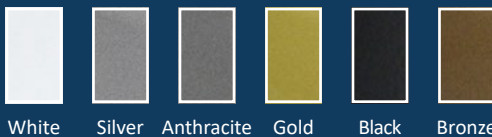

USE

- Tarmac rally
- Circuit
- Road
